Last Review: 2022  
Next Review: 2025

### 1. Background

The East Adelaide vacation care program offers a balance of centre-based days and excursion days for children aged between 4 to 13 years.

### 2. Relationships to Other Policy/Regulation

<b>Education and Care Services National Regulations (2011 SI 653) (Regulation)</b>	165 – Offence to inadequately supervise children 167 – Offence relating to protection of children from harm and hazards 174 – Offence to fail to notify certain information to regulatory authority
<b>National Quality Standard</b>	Area 2: Childrens Health & Safety 2.2.3 – Safety: Each child is protected.
<b>Other policies/service documentation</b>	Risk Assessment Policy Camps & Excursions Consent Forms Emergency and Evacuation Policy Medical Conditions Policy
<b>Other Legislation/Guidelines</b>	Camps and Excursion Guidelines

### 3. Staffing Ratios

Staffing ratios will vary depending on the activity taking place on the day. For example, Incursions that are based at the service will allow for a 1:15 ratio (1 educator for every 15 children), an Excursion ratio being 1:8 and high risk / water-based activities a ratio of 1:5.

### 4. Policy Statement

East Adelaide Out of School Hours Care (OSHC) considers excursions an integral part of the children's vacation care program and will be planned and implemented to provide a broad range of experiences. Each excursion will be carefully planned, and the risks assessed.

### 5. Excursion Considerations

The following factors need to be considered when planning an excursion.

#### 4.1 Risk

A risk assessment will guide whether an excursion is suitable and for what age groups.

---

Educator to child ratios for excursions will be based on a risk assessment of the excursion as well as taking into consideration the National Law (sections 165, 167 and 174) pertaining to adequate supervision. If there are new children or new educators, these factors will need to be addressed in the risk assessment.

The risk assessment should address the following:

- 1. The age and abilities of the children
- 2. The destination and length of the excursion
- 3. The transport to be used
- 4. The previous experience of the accompanying adults
- 5. The expected activities that children will participate in

### 4.2 Weather

- When excursions are planned, staff will take possible changes in weather and temperature into account.
- Weather forecasts will be checked 48 hours before the excursion. Excursions during the summer months check with their local CFS, MFS and/or the Bureau of Meteorology to monitor weather warnings that may be related to the location of the excursion, and implement contingency plans if required.
- If planned excursions are to areas where there is fire danger, close monitoring of the potential danger and appropriate actions are essential.
- Educators will ensure there are sufficient shaded areas for all the children to protect them from the sun, and undercover areas or enclosed areas to protect them from rain and cold weather.
- Programs must be flexible enough to cancel, modify or shorten an excursion if it is in the children's best interests and to offer alternative experience

### 4.3 Families

- All excursions will be publicised to families and there will be no change to the publicised itinerary unless the person in charge of the excursion decides it is necessary for the safety and wellbeing of the children.
- In the event that the weather conditions require a change to the itinerary, the director will ensure that families are notified as soon as practicable. If this is before the departure time, the Director will communicate this via Konnective / emails.
- Families will be advised if particular clothing is required, as well as snack/lunch requirements, and any other relevant information. This information will be available via the Vacation Care program and on FullyBooked upon session selection.
- Risk assessments for the excursion are available to families upon request.

### 4.4 Other Considerations

- Identify the hazards that should be included in a risk assessment.
- Children with additional needs will be identified prior to excursion and additional educators will be rostered on if required. The service will apply for Inclusion Support Funding to assist these children if applicable.
- The Director will communicate with the venue to ensure children with additional needs can participate.
- Risk Assessment will include any additional information regarding children requiring additional support.

## 6. Roles and Responsibilities

The director and educators will be responsible for:

- Meeting the needs of children who require medication - Medical Conditions Policy.
- Implementing the service's Sun Protection Policy on all excursions.
- Informing families about food for excursions.
- Developing strategies to enable employees to have breaks, in keeping with the relevant Award.
- Ensuring that the child/adult ratios are adhered to.

Families will be responsible for:

- Not sending their child on an excursion if the child has any signs of being unwell.
- Adhering to the requests from the service about clothing to be worn, food to be brought and any other specific requests.
- Being punctual and having children at care with sufficient time for the educators to make the essential final arrangements for scheduled departures.
- Providing a hat for children to take with them.
- Providing children with a full bottle of water.
- Communicating with their children what activity they will be participating in.

## 7. Excursion Requirements

All excursions must ensure

- Children can access drinking water as required.
- There is a procedure for regularly checking all children are present whilst on excursions.
- There is a way for staff to communicate with each other if, through the course of the excursion, they become or are required to be separated (eg. staff mobile phones or walkie talkies).

### 6.1. Excursion Checklist

Items to take on an excursion

- A first aid kit, including SPF 30+ broad spectrum water resistant sunscreen
- A fully charged mobile phone
- A list of all children on the excursion and a list of emergency phone numbers
- A generic change of clothes
- Children's medication packs
- Children's medication on the day at specific time (Ex. Lunch time)

## 8. Activity Structure

At East Adelaide OSHC we have a highly enthusiastic team who are always on the lookout for new Vacation Care ideas that are both fun and engaging. Activities range in cost as there is a wide variety to choose from. Fees will vary depending on what kind of session it is (Home-day, Incursion, Excursion) and the cost to the service per child. The category of an excursion considers the costs of food, resources, transport, activities and staffing.

Activity Type	Bronze	Silver	Gold	Platinum
Activity Example	\$50	\$60	\$70	\$80
